

Butterfield Launches Investment Services In Jersey And Lowers Entry Point For Key Fund

May 18 2026

Saint Helier, Jersey: Butterfield has launched its range of investment services to clients in Jersey, including its discretionary investment management services and access to its Multi-Asset Fund with a lower minimum entry point of £1,000.

The Jersey launch follows the continued success of Butterfield's asset management team in Guernsey, where investment services have been available for over 20 years. It marks another step in the company's continued commitment to expanding financial services to meet the needs of local residents.

Nigel Garrard, Butterfield's Head of Asset Management in the Channel Islands, said: 'We are delighted to expand our established investment offering to Jersey and, by lowering our entry point to the Multi-Asset Fund, we are ensuring that more clients can invest with confidence to grow their wealth. At Butterfield, we are committed to building long-term relationships and helping both individuals and companies achieve their financial goals through disciplined investment management and personalised service.'

The Multi-Asset Fund is an actively managed, low-cost, fund of funds investment approach, which provides a high level of diversification in one convenient fund. The aim is to provide investors with solid risk-adjusted returns over the medium to long term.

Discretionary investment management services are available to a wide range of clients from large institutions to individual investors with minimum investment requirements starting at £500,000. Using a combination of individual securities, actively-managed funds and passive investment vehicles such as Exchange Traded Funds (ETFs), clients can benefit from excellent diversification and strategic cost savings. Execution-only dealing is also available for those who prefer to select and manage their own investments.
