Recent Developments

The third quarter of 2021 continued to illustrate the value of Butterfield's business model across economic cycles. The Bank's strong results were achieved despite the prevailing low interest rate environment and the continued waves of outbreaks of COVID-19. Butterfield has been able to maintain solid net-interest earnings and non-interest revenue, with excellent credit quality and performance, while managing strategic business investments and prudent expense moderation initiatives. With historically high deposits, the Bank continuously evaluates deployment options into earnings assets, whilst maintaining appropriate capital, funding and liquidity levels.

The Bank continued its balanced capital return policy in the third quarter of 2021. The Board again declared a quarterly dividend of \$0.44 per common share to be paid on 24 November 2021 to shareholders of record on 10 November 2021. During the third quarter of 2021, Butterfield also repurchased 0.1 million common shares under the Bank's current 2.0 million common share repurchase plan authorisation.

As previously announced on 3 August, the Bank has reached a resolution with the U.S. Department of Justice concerning the inquiry into Butterfield's legacy business with U.S. clients that was first reported in November 2013. The resolution is in the form of a non-prosecution agreement with a three-year term. The Bank paid \$5.6 million in respect of Forfeiture and Tax Restitution Amounts, in line with the provision that was included in the Bank's financial statements as recorded in 2015 and 2016.
